# WHAT IS MODULAR MAGNETIC?

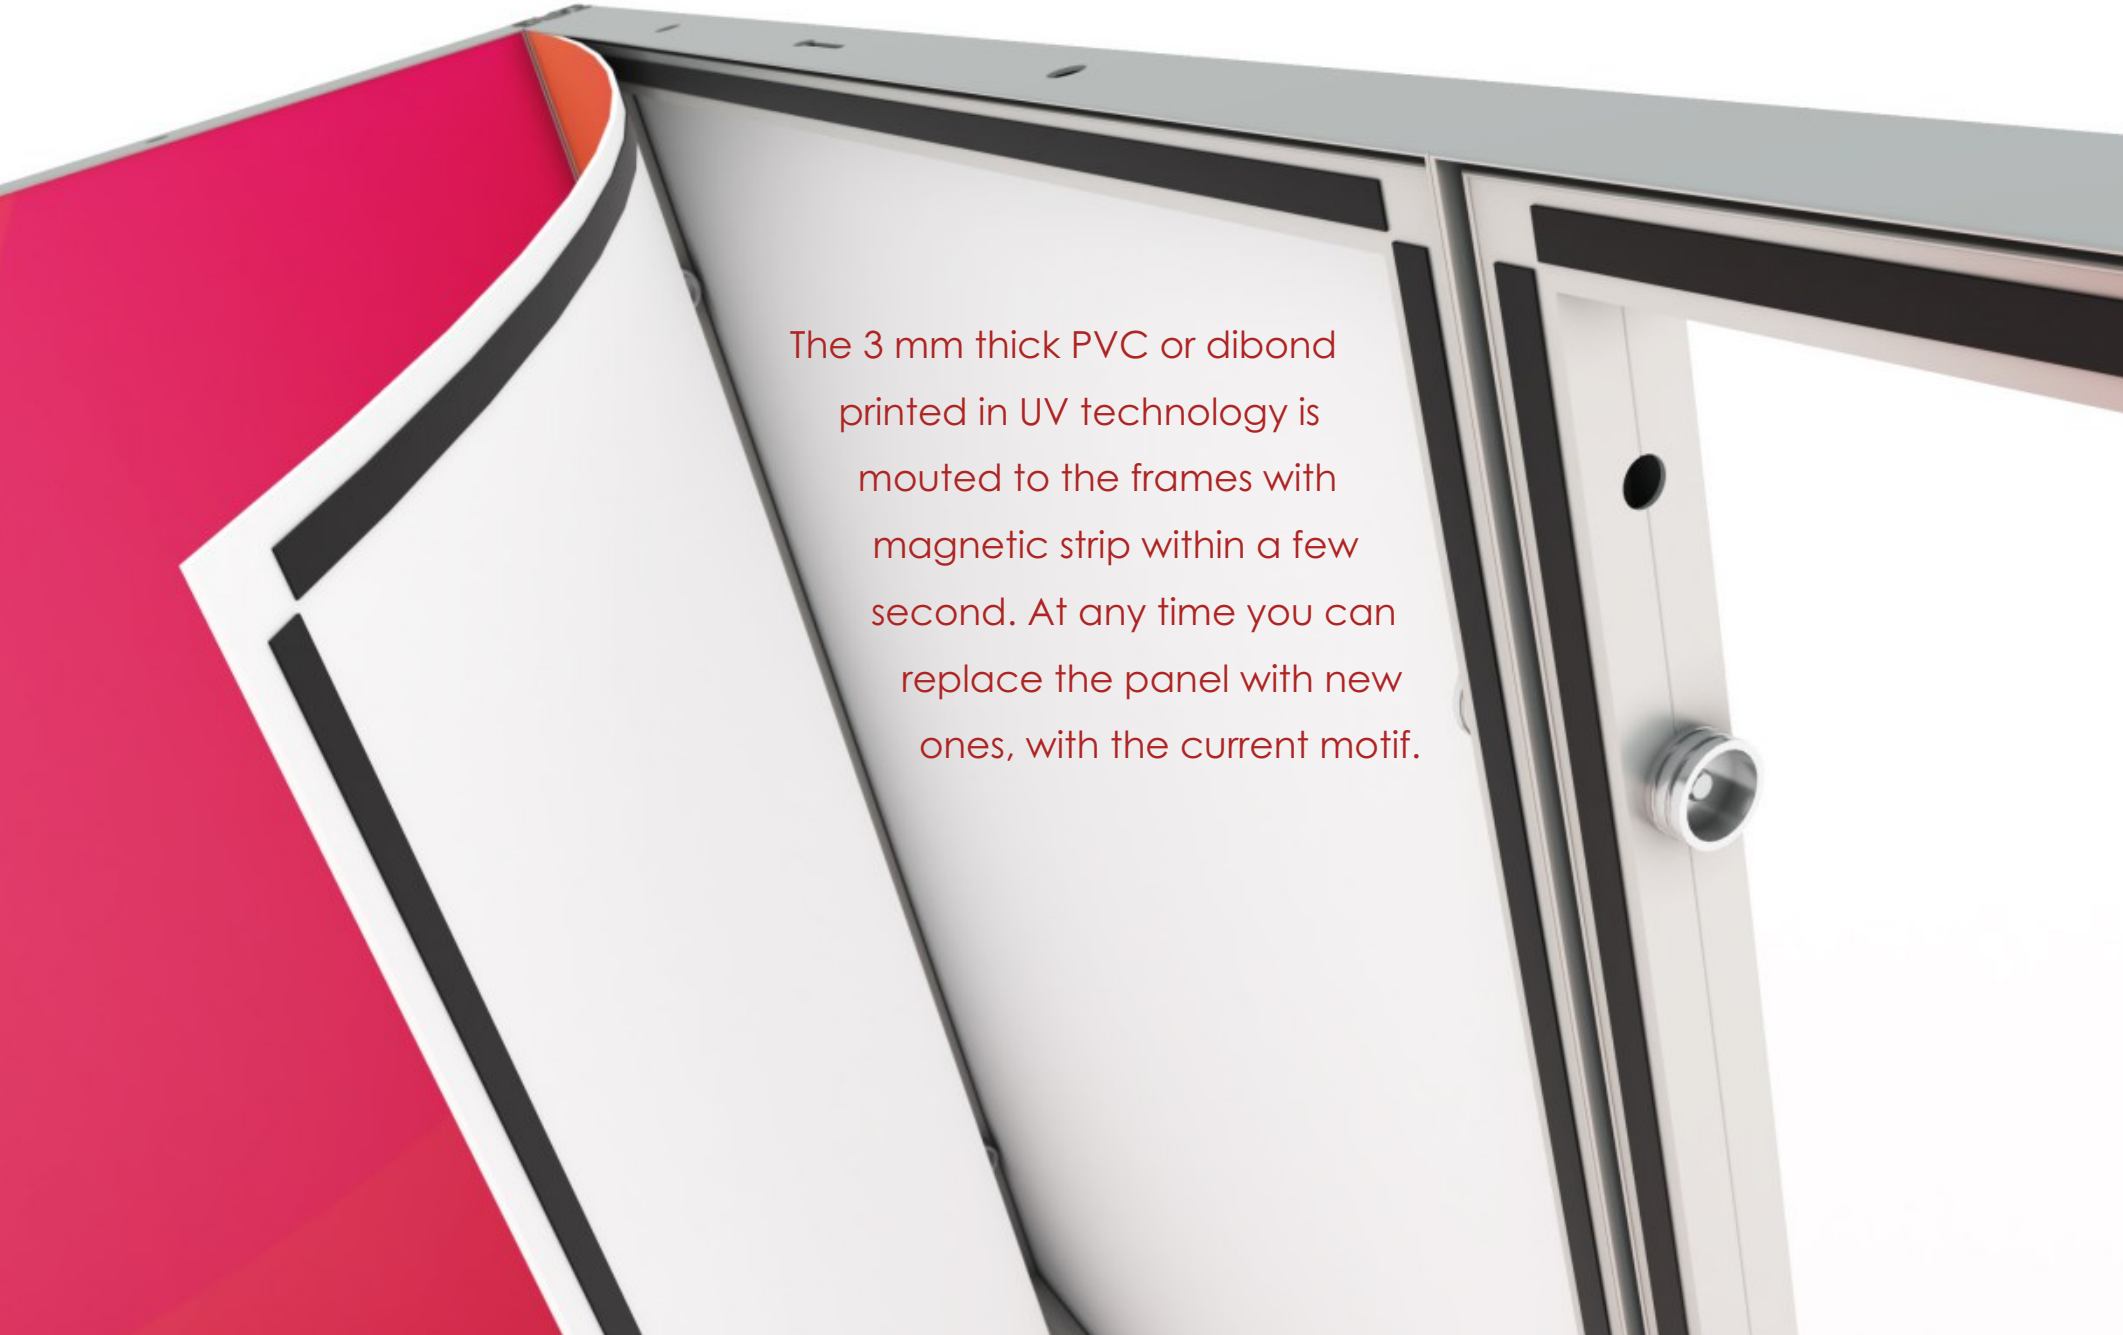

Modular Magnetic is a modular exhibition system for creating fair and event stands. The system is based on the idea of multiple use of aluminum frames in various configurations. The installation is simple and intuitive – without any tools. You can create the booth – like with the blocks, in many ways: extending (by adding extra panels), changing shape etc.

Thanks to changeable graphics panels, mounted to the frames with magnetic strip you can easily build the stand that suits to every project. What is more, the system is easy to store and transport. The frames can be transferred to the destination place on the system trolley.

# INFILL: PVC, DIBOND

---

The 3 mm thick PVC or dibond printed in UV technology is mouted to the frames with magnetic strip within a few second. At any time you can replace the panel with new ones, with the current motif.

## JOINING THE FRAMES

Thanks to the simple connectors and many accessories, you can create effective exhibition stand, promotional island or shop-in-shop etc. All in a very short time, intuitively without any tools.

# ELTEX MAGNETIC FRAME

# LOOK, HOW EASY IT IS!

MODULAR MAGNETIC IS AN EXCELLENT INVESTMENT! IT IS SAVING YOUR TIME AND MONEY!

MAGNETIC  
STRIP

# PVC PLATE

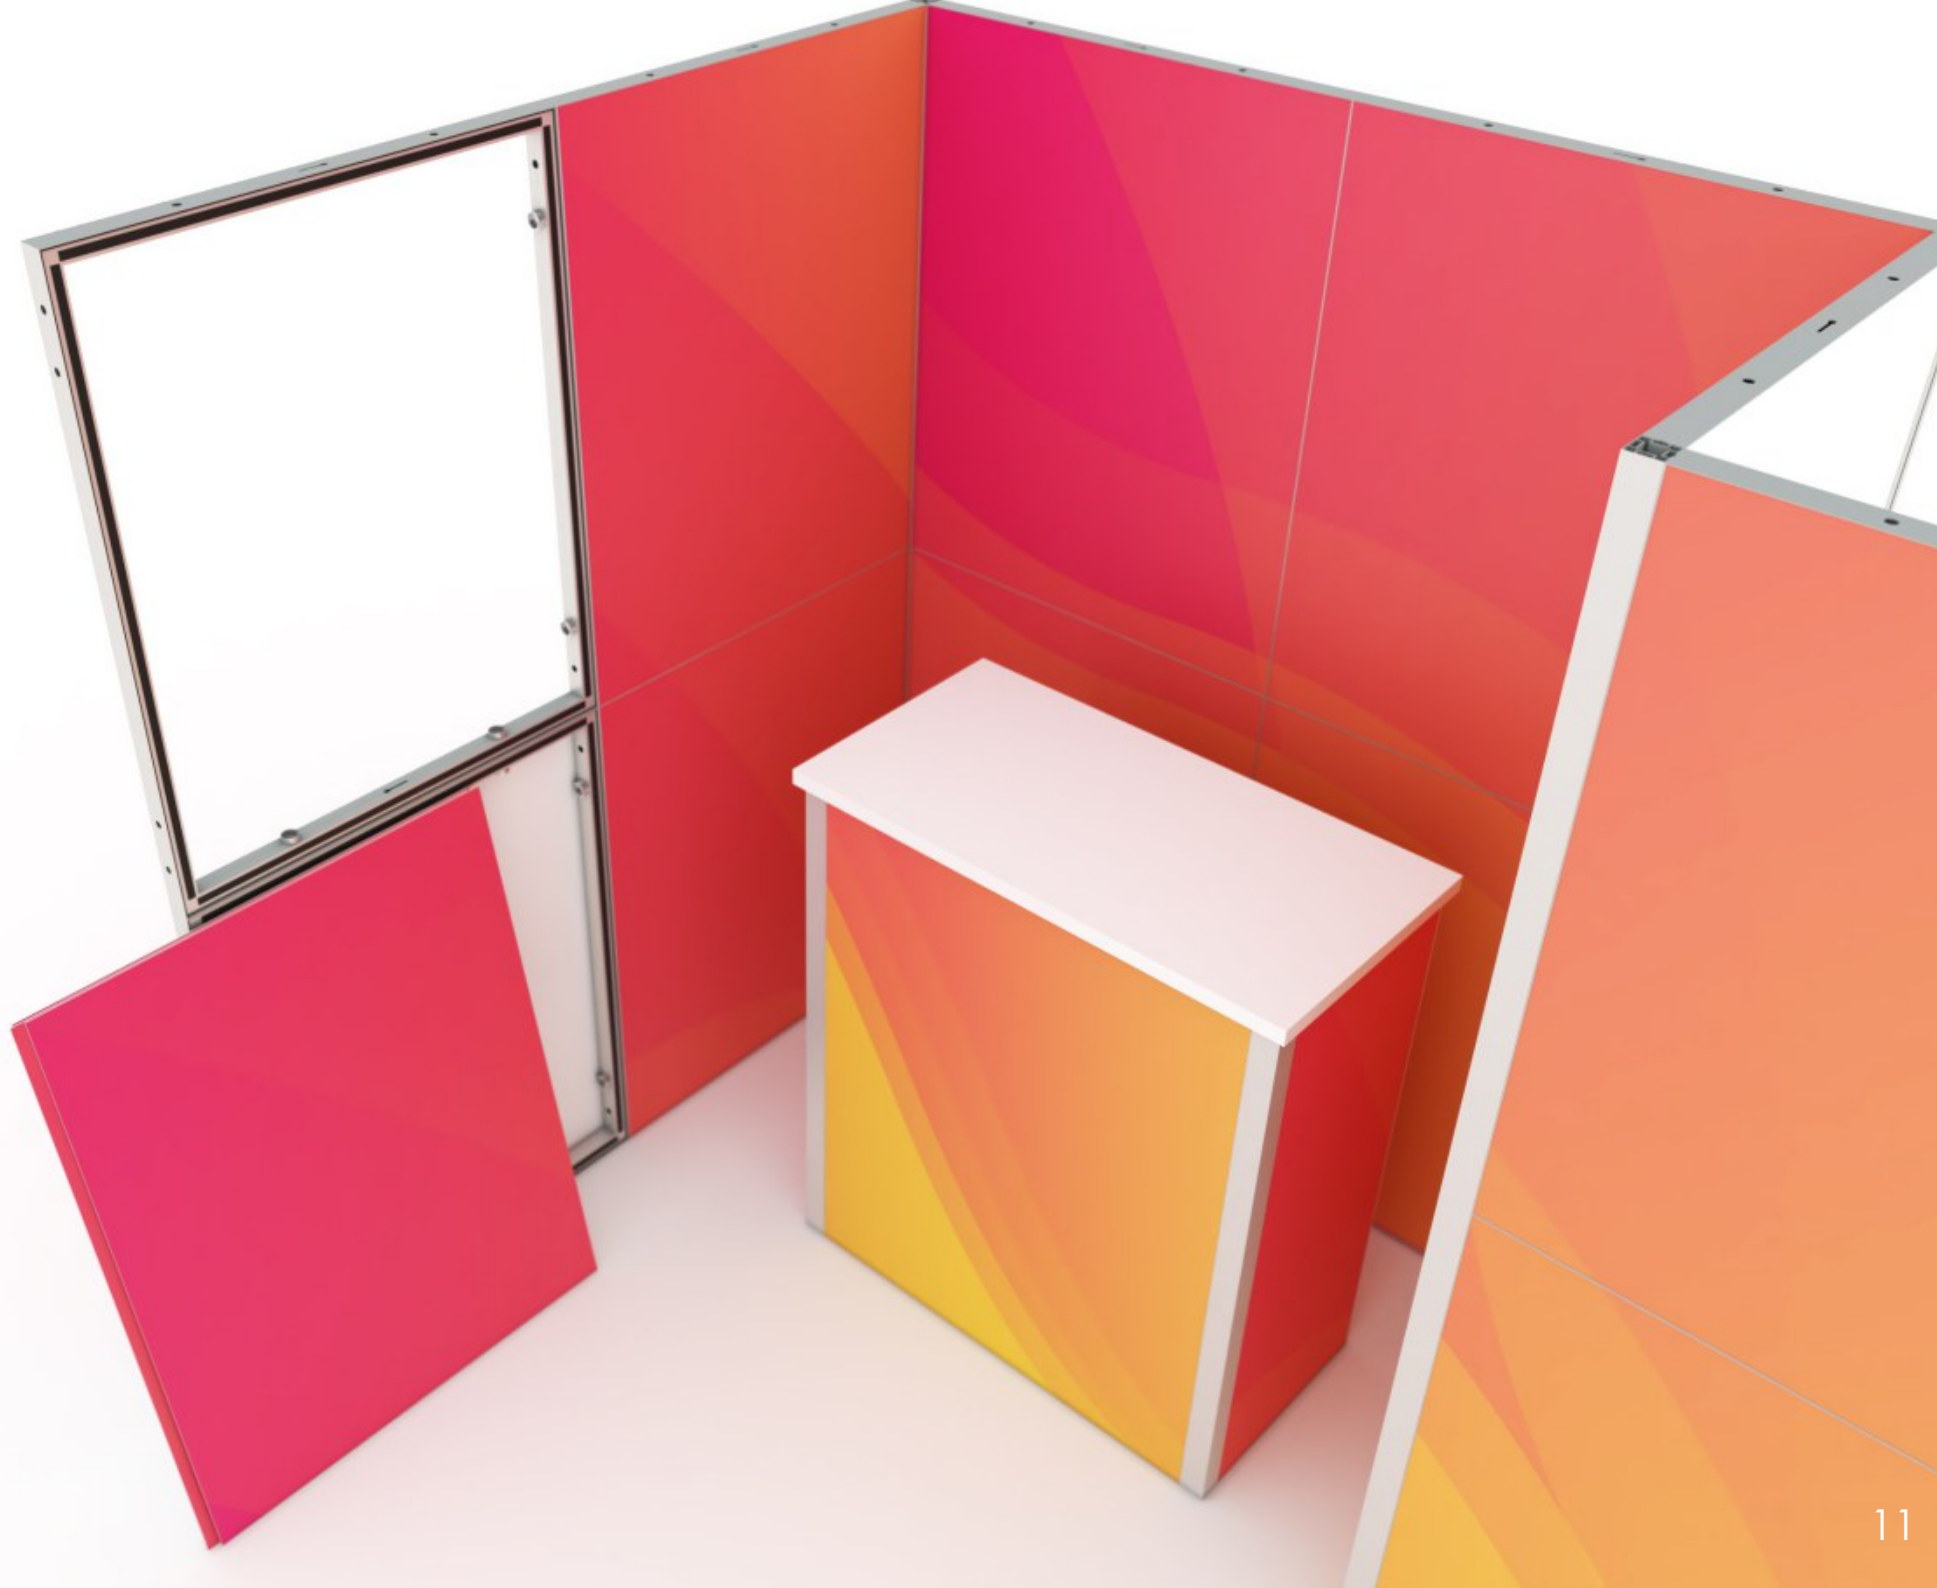

MAGNETIC  
STRIP

- Extremely easy and quickly assemble and disassemble
- Installation without any tools and technical expertise
  - Changeable graphics panels in a few seconds
    - Easy to store and transport
- Multiple use of the system in various configuration

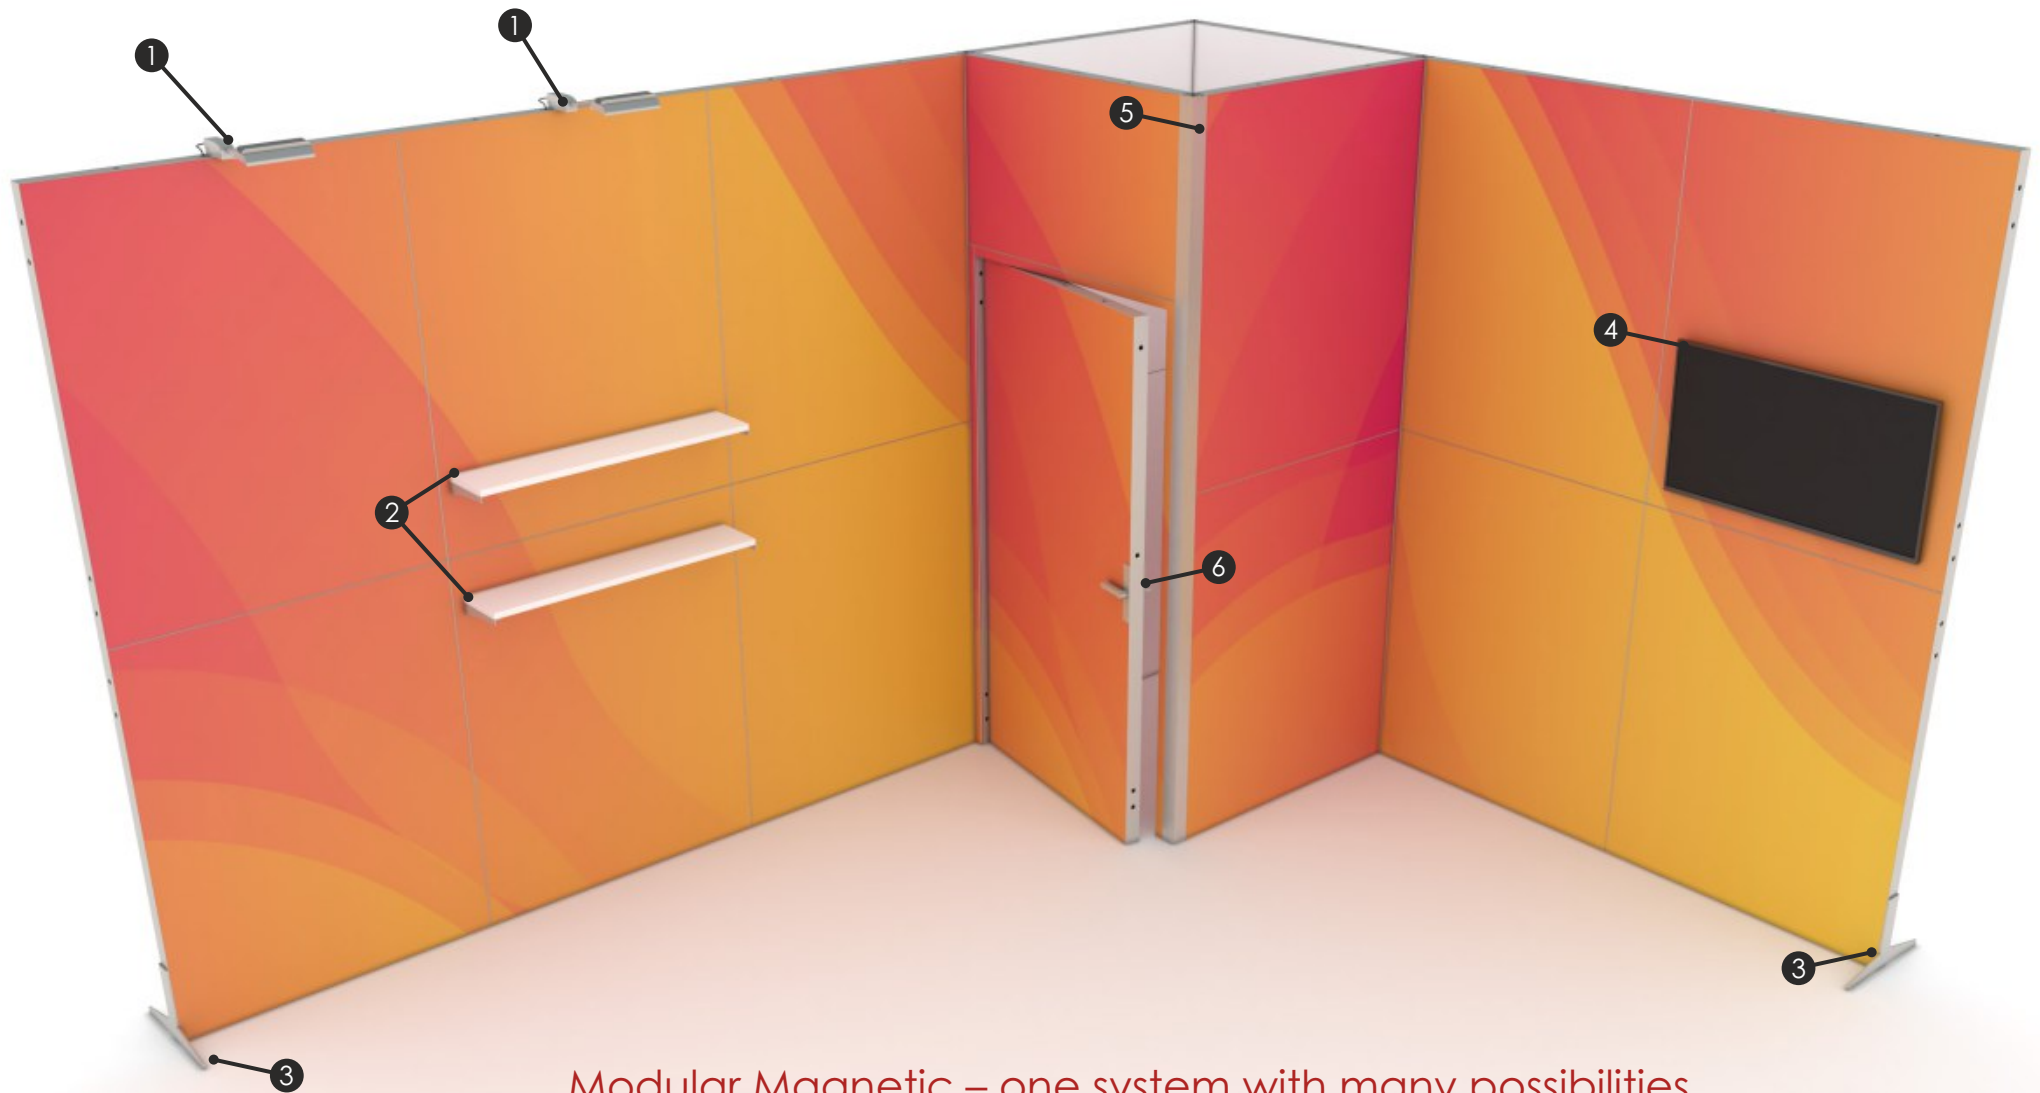

**PVC PLATE**

(PRINT)

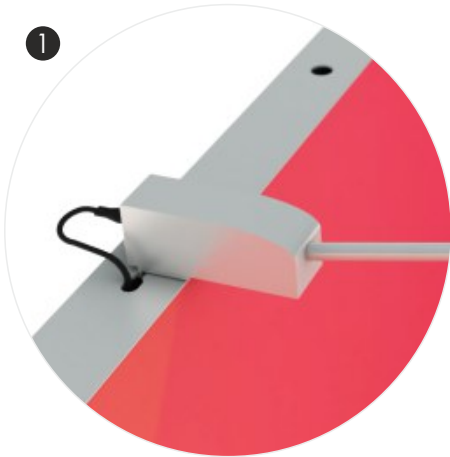

**THAT'S ALL!**

# ACCESSORIES

Modular Magnetic – one system with many possibilities.

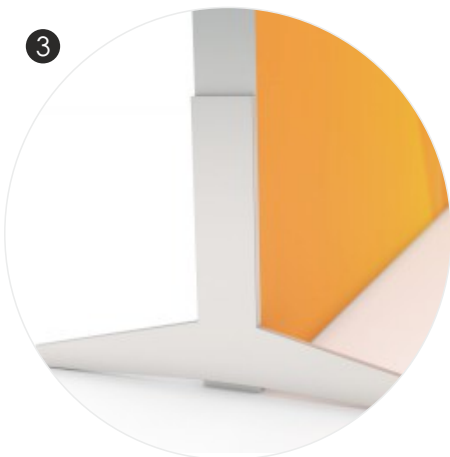

## Lamp

External LED lighting system available in two types: 42L and 60L.

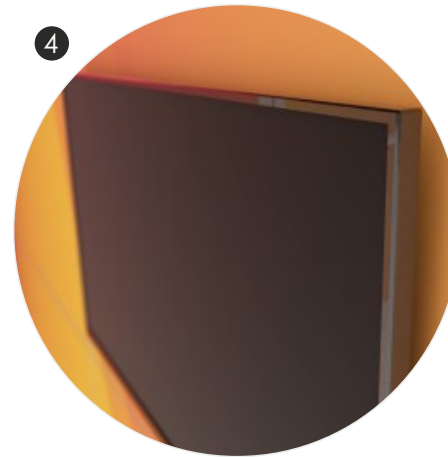

## Shelf

It is where you can present your product during the show.

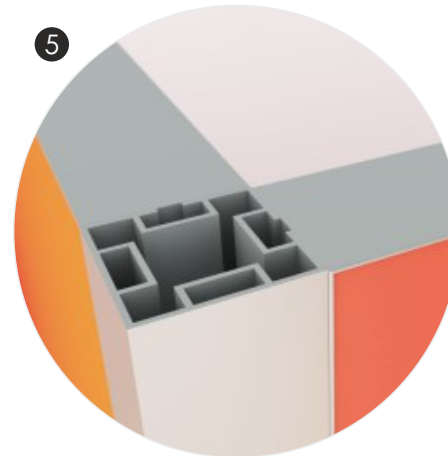

## Base plate

When creating the enormous booths we provide the construction with base plates to make it more stable.

## TV holder

TV holder with a set of components for the screen assembly.

## Corners

This profile is the perfect finish of the stand's corners.

## Door

Door for Modular Magnetic System, locked, filled with printed panel.

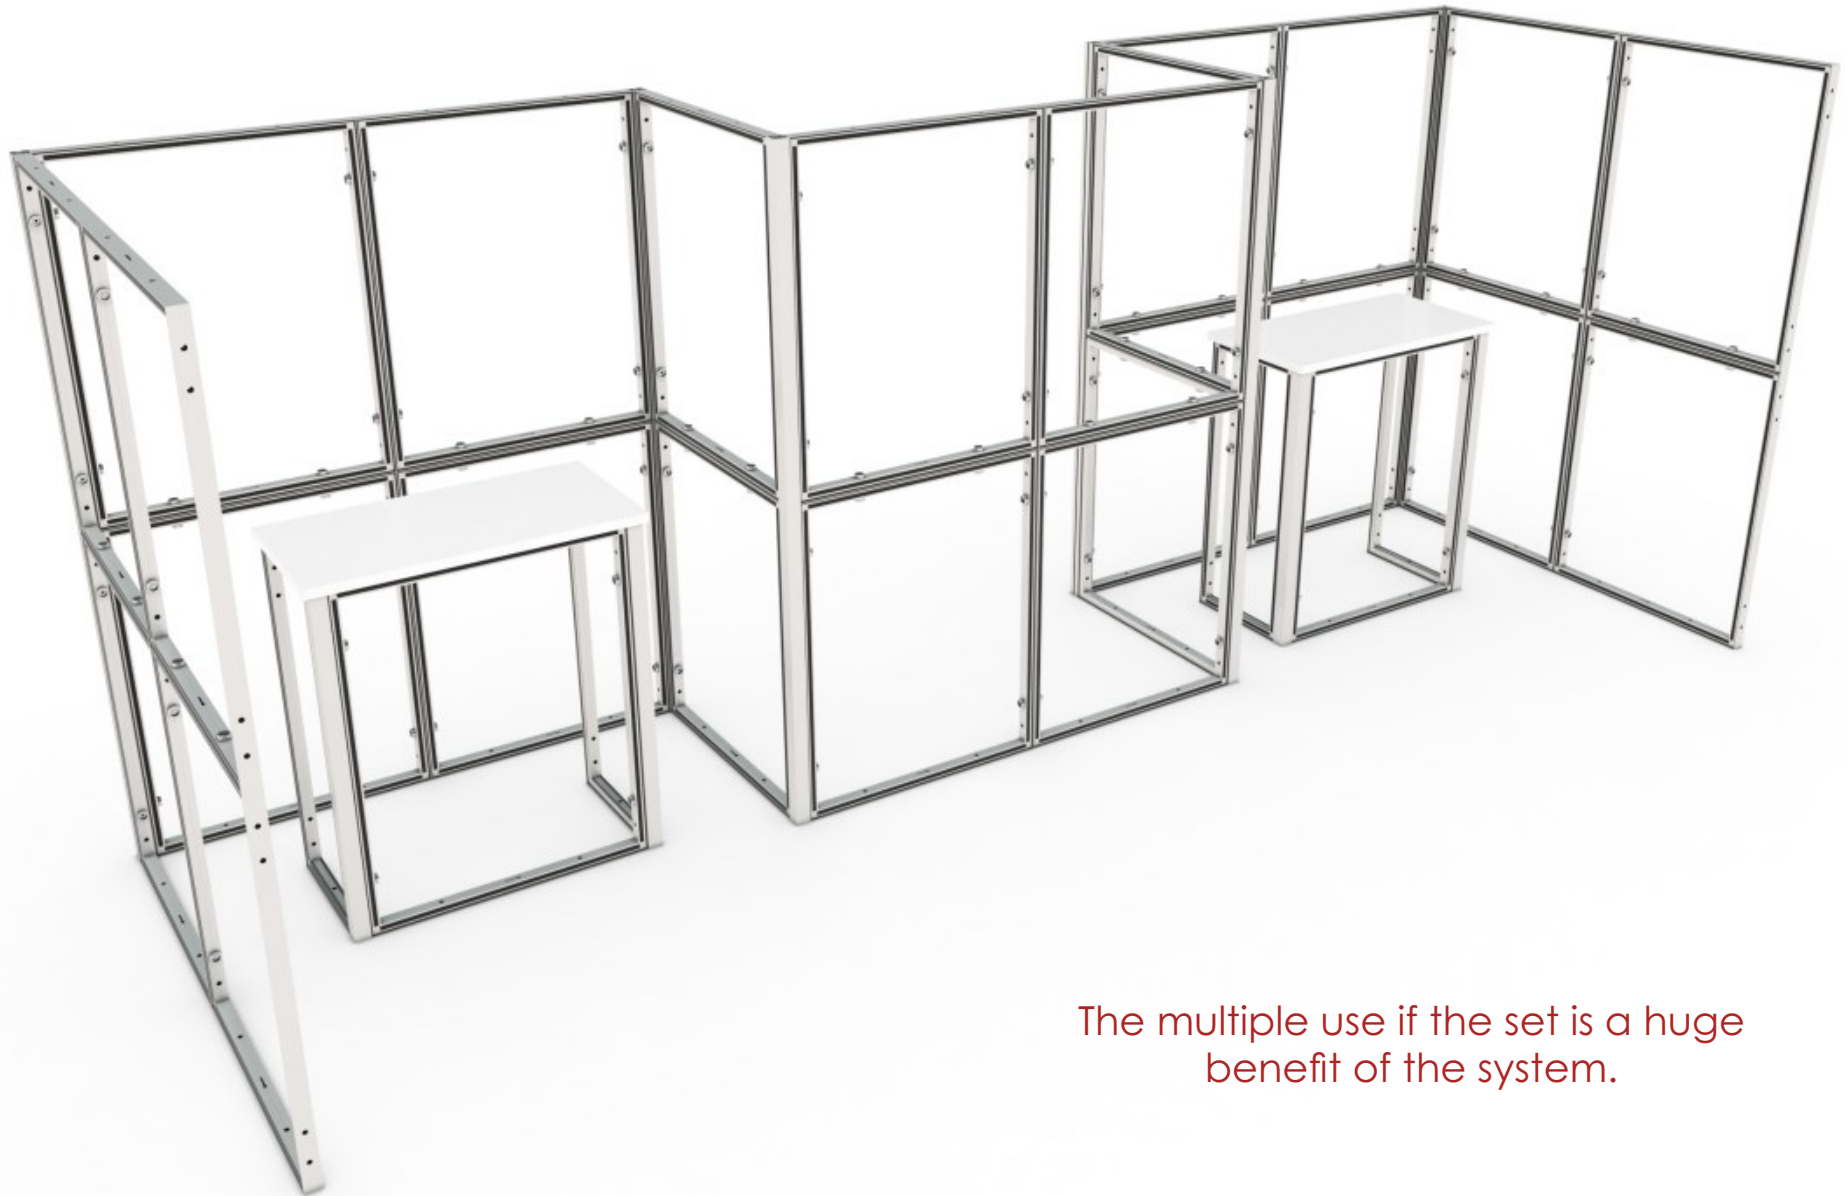

# SETS

# EXAMPLES

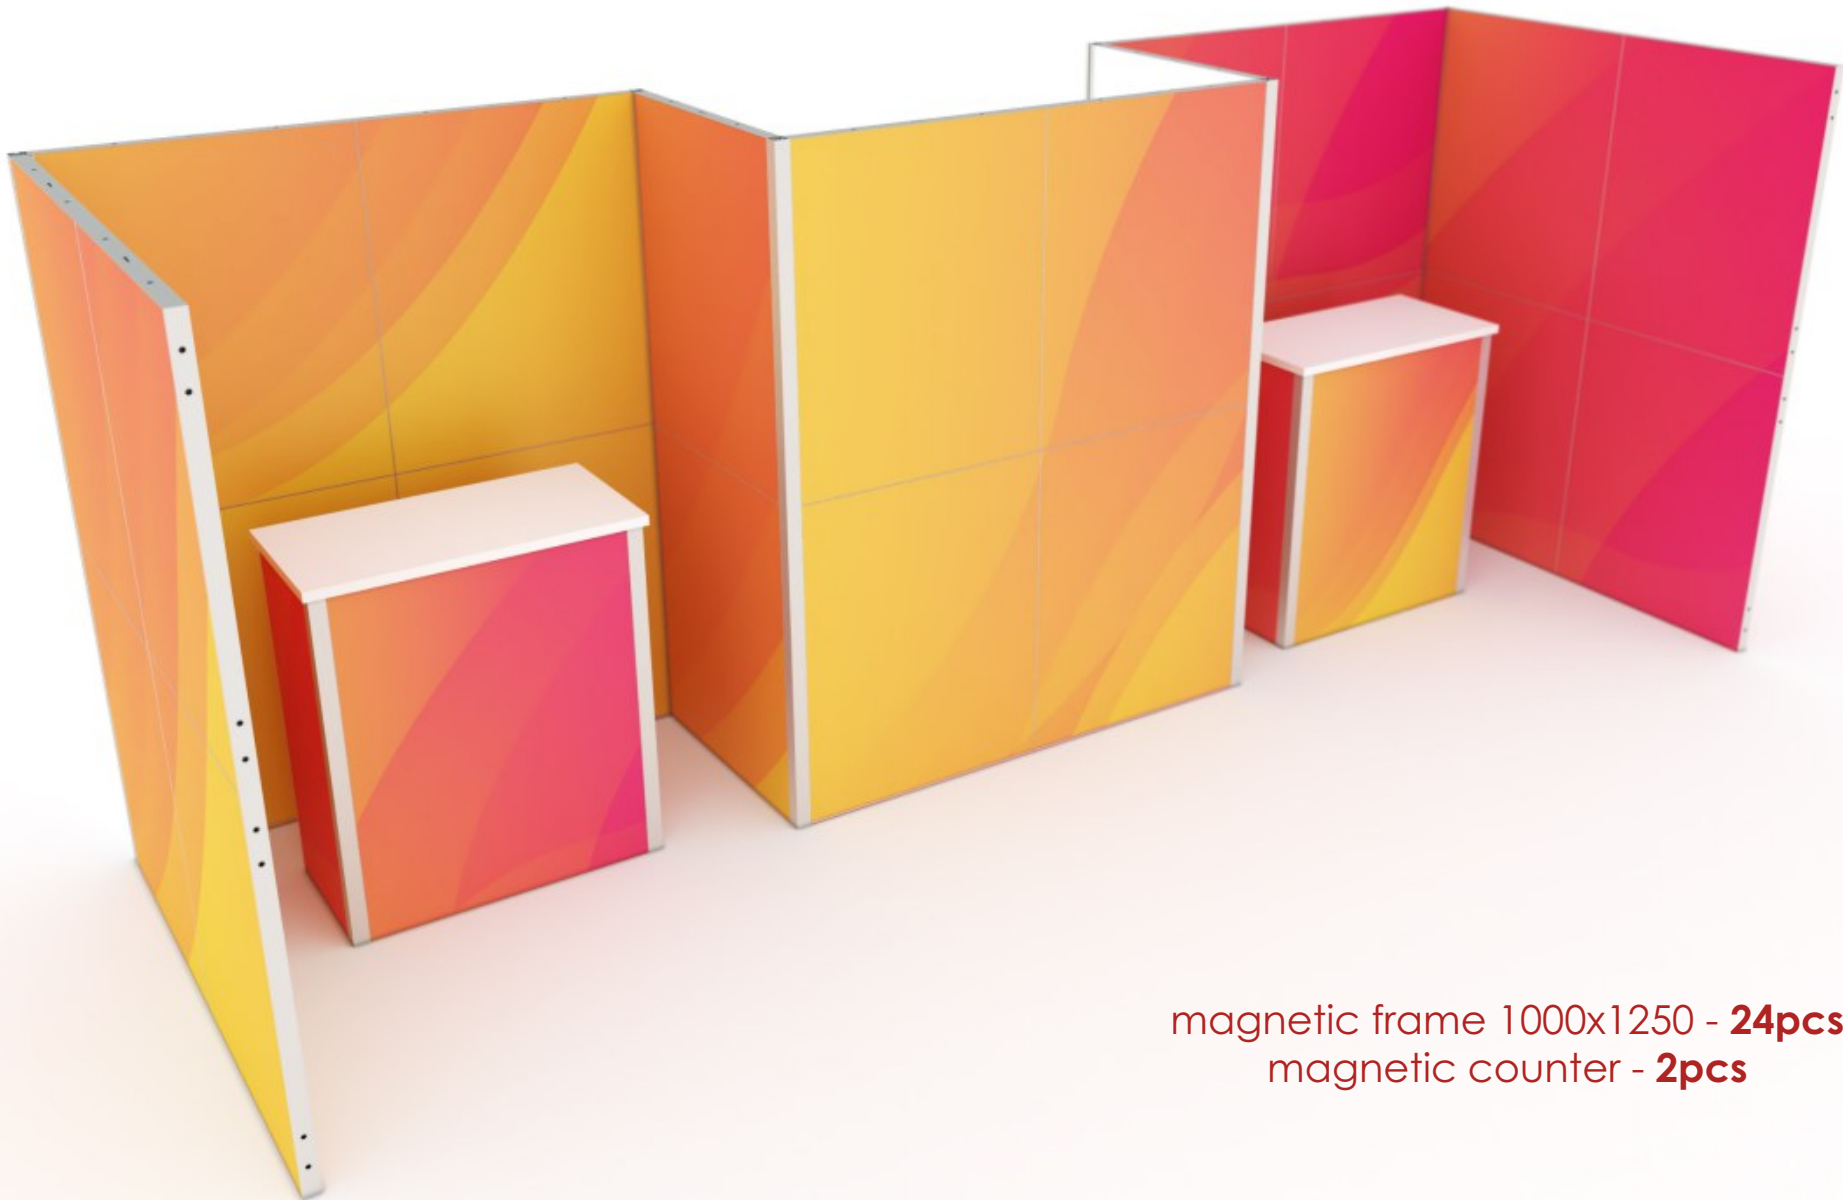

# SET 1

---

The multiple use if the set is a huge benefit of the system.

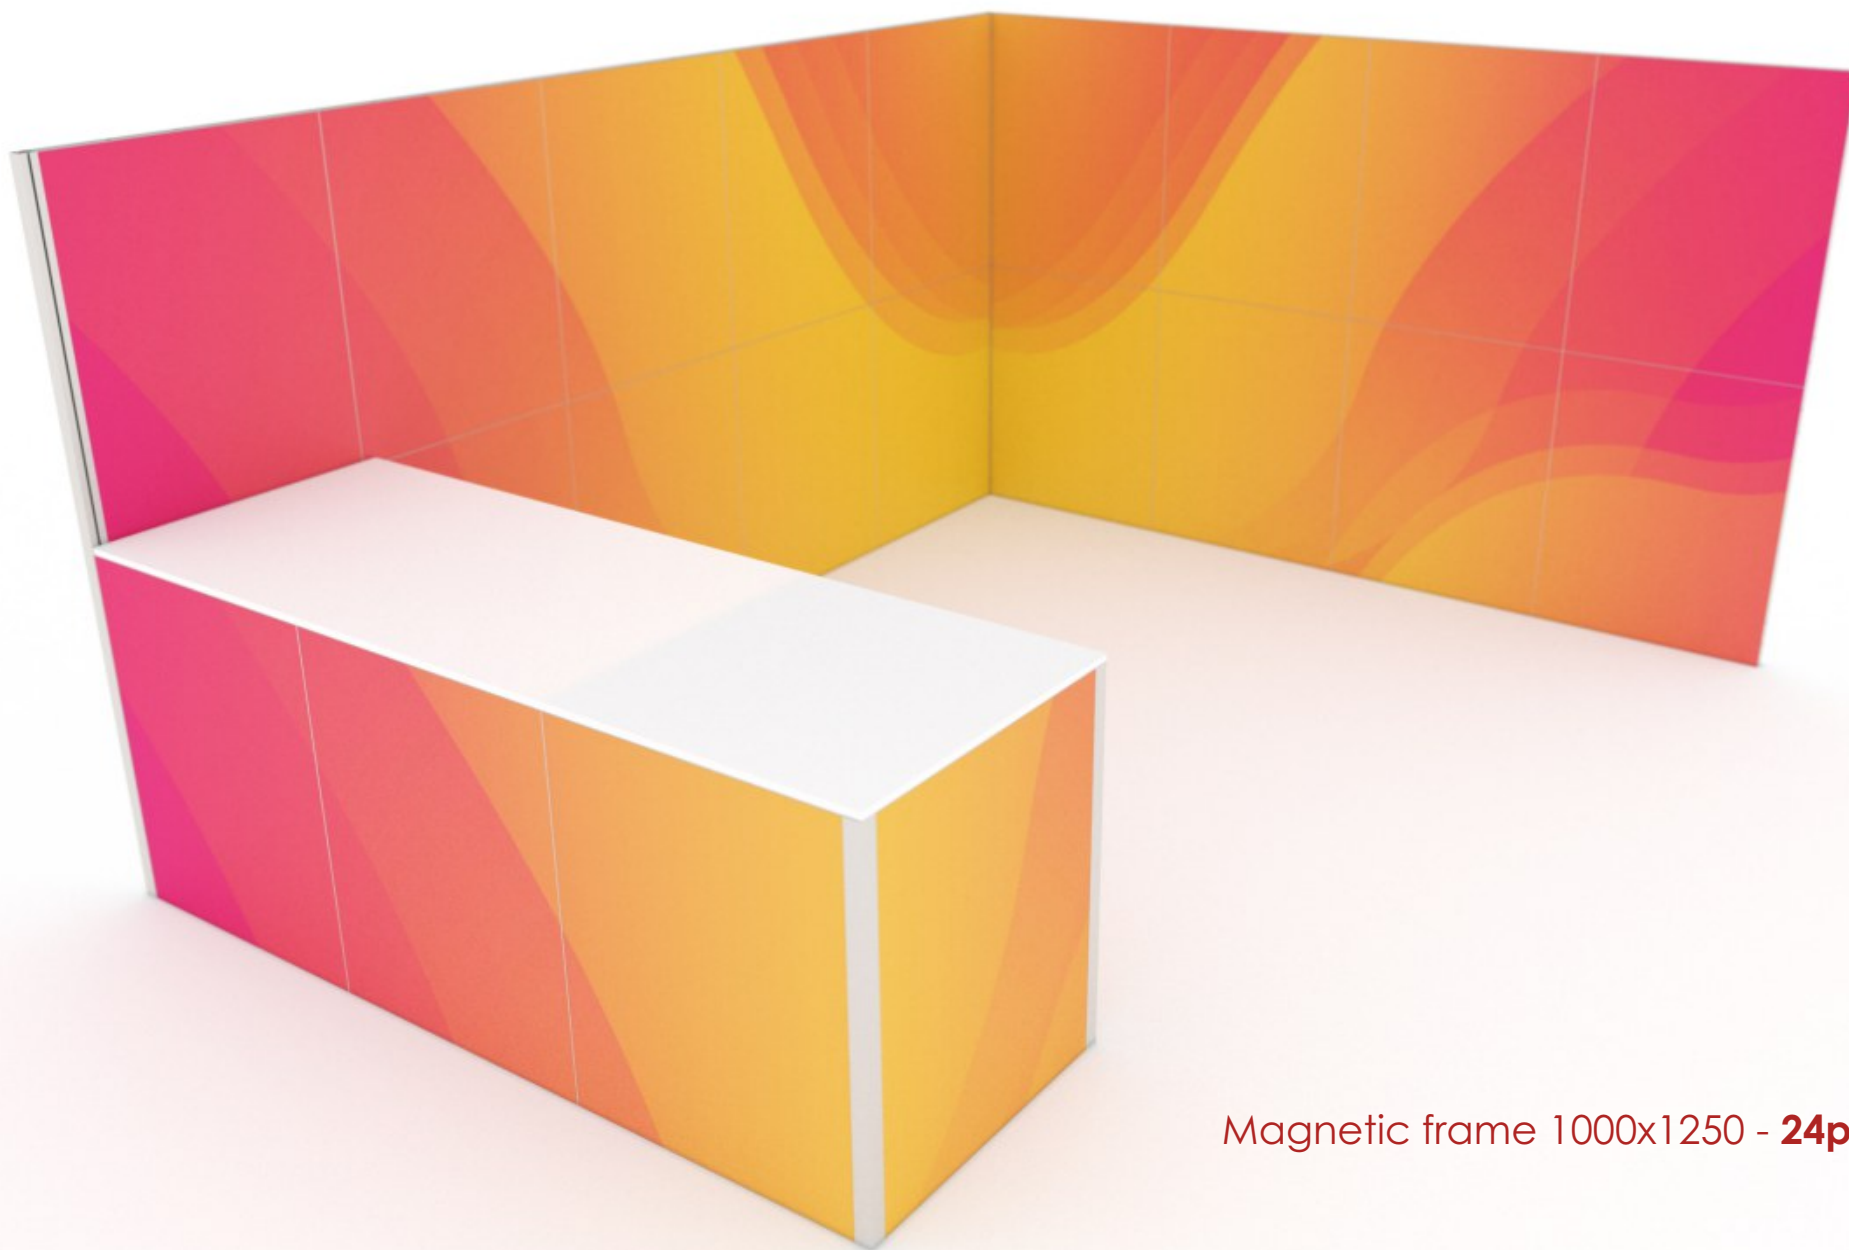

magnetic frame 1000x1250 - **24pcs**  
magnetic counter - **2pcs**

# SET 2

---

Frames can be easily combined in different reconfigurations.

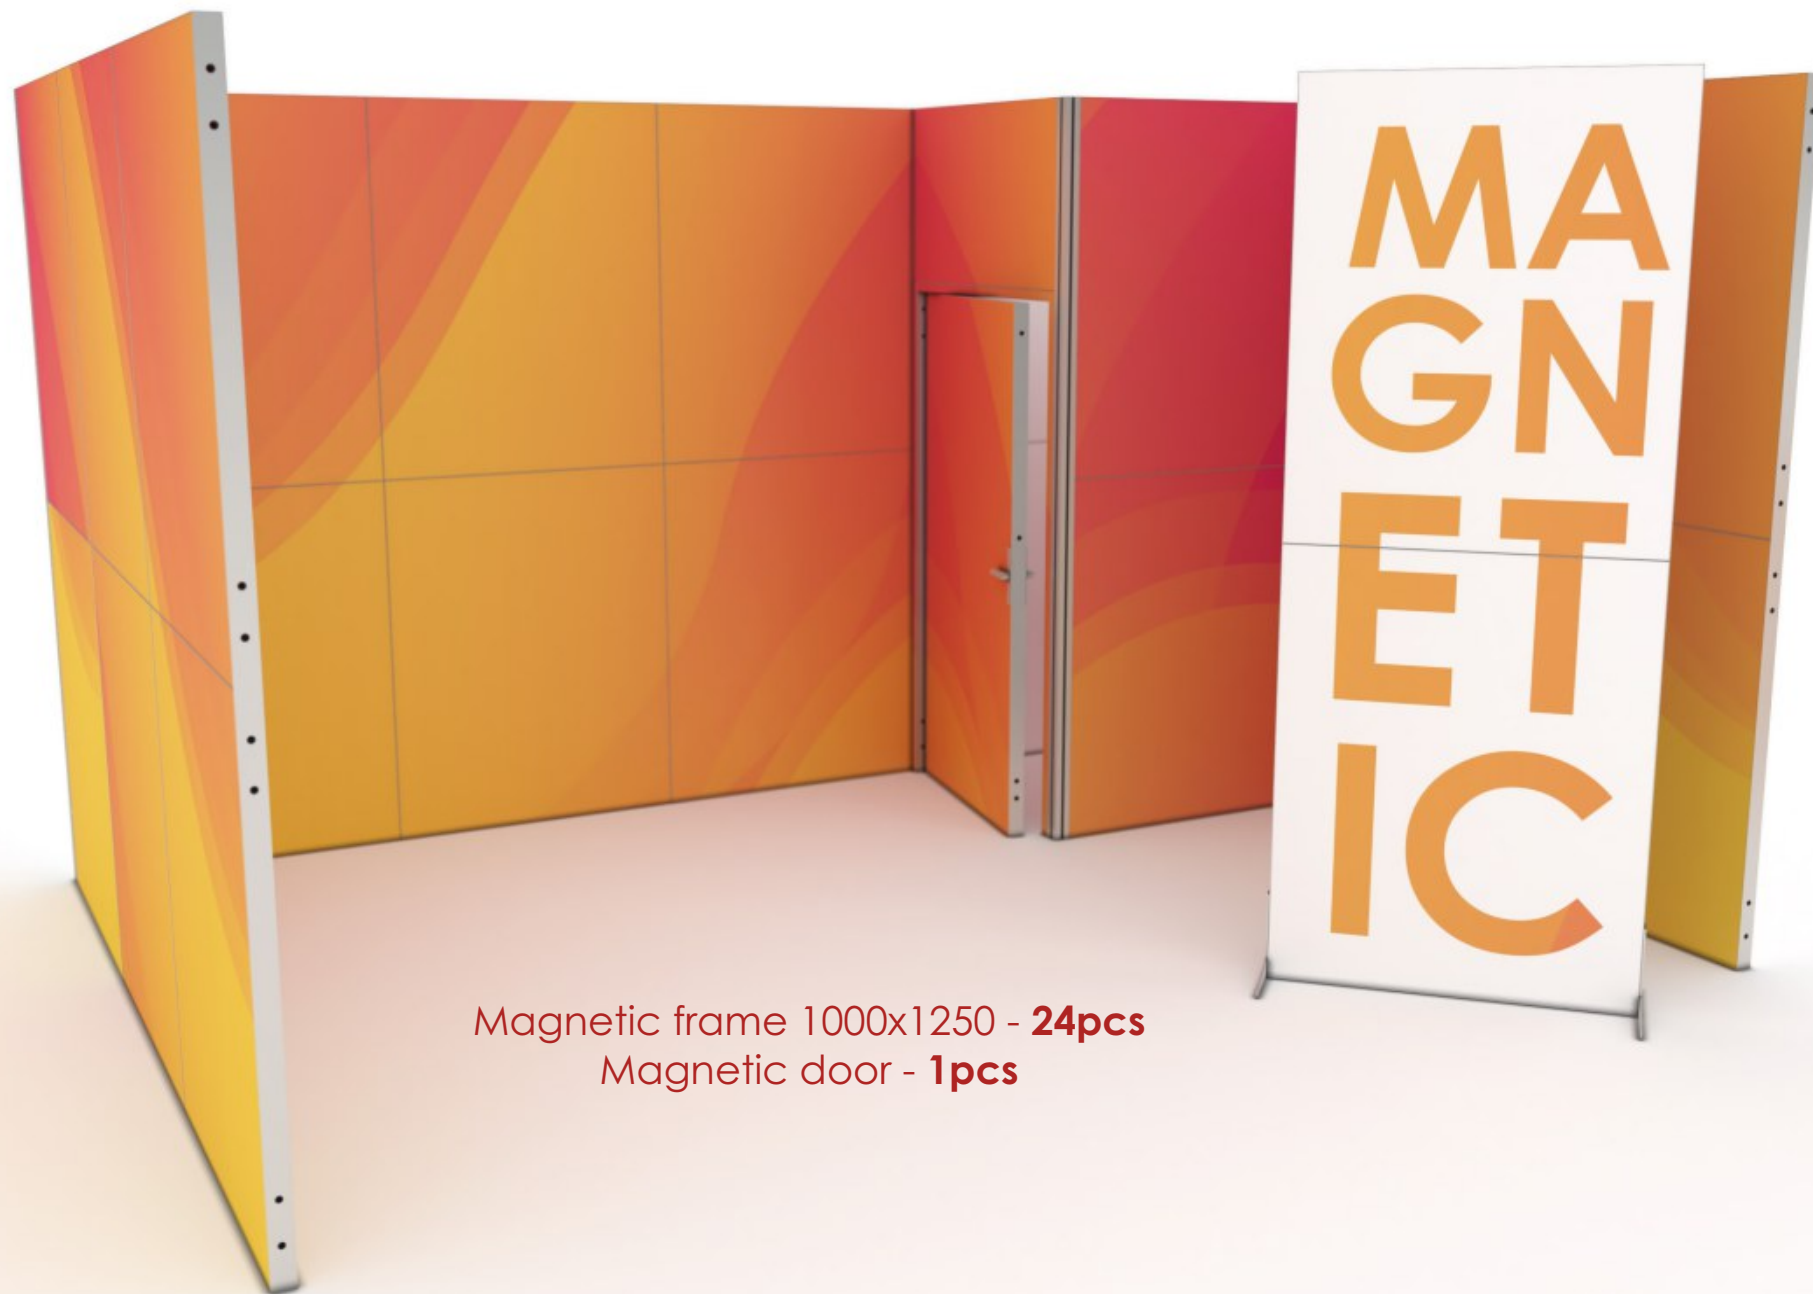

Magnetic frame 1000x1250 - **24pcs**

# SET 3

---

In addition, you can easily extend the stand by adding new frames and graphic panels Set 4: One set provides many configuration options. What is extremely important - you can always buy new customised graphic panels, additional frames or accessories.

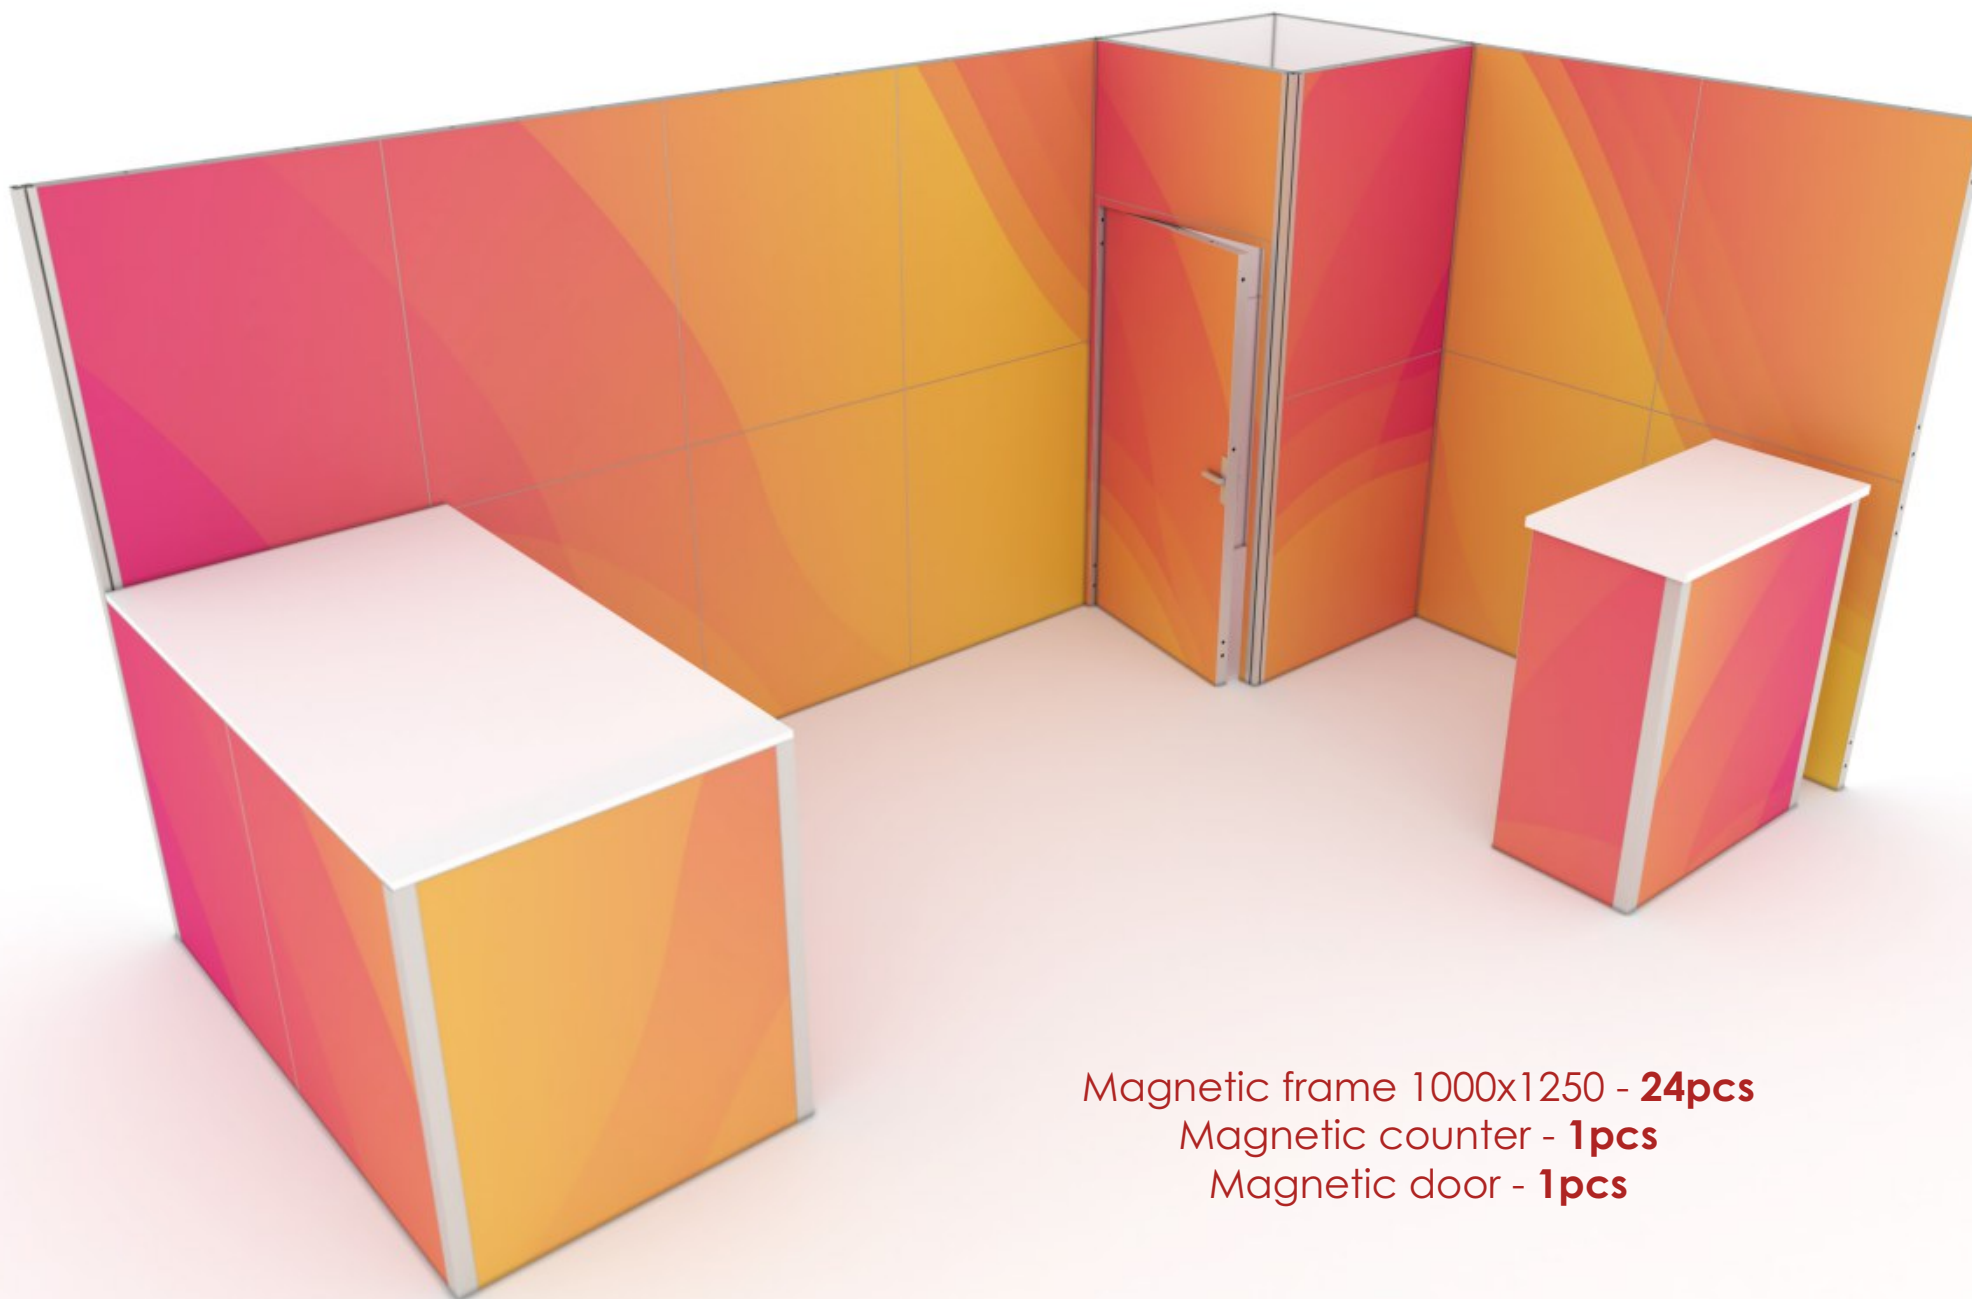

Magnetic frame 1000x1250 - **24pcs**  
Magnetic door - **1pcs**

# SET 4

---

Magnetic frame 1000x1250 - **24pcs**

Magnetic counter - **1pcs**

Magnetic door - **1pcs**
